

Bray Field

Follow directions to Cohutta Springs Camp – take the last right before turning into the camp. Stay on this road until it dead ends, then take a left. It will turn into a gravel road. Take the 2nd right, go until you get to the parking area. Rough cut trail.

The trail in is several miles long and there is a large flat area that is good for a large group to camp. There are also a number of campsites along the river suitable for smaller groups.
